

# iotega

Smart home security system

---

Give homeowners total control, backed  
by your professional support and service

# Introducing iotega

Advance your service offering and stand out in your market with an award-winning smart home security system. With iotega, you can give homeowners a new level of control and flexibility, backed by your professional service – which they already know and trust.

## Smart security

### Live notifications

Immediately sends notifications to homeowners' mobile devices whenever an alarm is activated in their house.

### Real-time view

Via high-res security cameras, homeowners can see what's happening in the house. When alarms are activated, they can view the live video feed and decide if there's a real threat.

### Remote system control

Arm/Disarm, bypass security sensors, activate and schedule events, and more, can be done from anywhere via the app on the homeowner's mobile device.

### Super simple to use

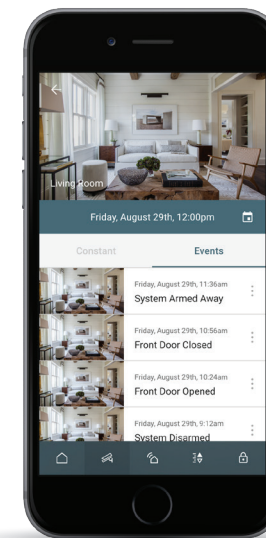

The intuitive touchscreen and mobile app make it quick and easy for homeowners to check status and manage their smart home security.

### Super secure

Fully encrypted and reliable wireless security system backed by PowerG technology.

- Compliant with EN Grade 2 and UK-specific security standards
- End-to-end 128-Bit AES encryption
- Built-in siren
- Visual verification
- 99 user codes

# Smart home, safe home

iotega enables homeowners to remotely control varied security-related actions and other activities around their home. They can choose their favourite Wi-Fi and Z-Wave Plus home automation devices and conveniently control them together with their security system.

## Locks

Works with smart locks, enabling homeowners to conveniently control who comes into their house or specific rooms, and when. They can lock doors from anywhere.

## Lights and blinds

Homeowners can turn lights on and off, control dimmers, via the app.

## Heating and cooling

Supports thermostats and smart power sockets, enabling homeowners to easily control the temperature in their house from anywhere.

## Water shut-off

Works with smart water valves and the PowerG flood detector, enabling homeowners to set a rule to shut off water flow in the event a leak is detected.

## Schedule

Homeowners can automate many actions, such as changes in lighting and window blind status, for convenient living and to make the house appear occupied even when no one is home.

# Smart business model

## Getting started

To add iotega to your offering, you must be a partner of either Alarm.com or SecureNet, the exclusive security solution providers for iotega.\*

Once you have an account with one of the providers, you can install iotega systems at your customers' homes and do the initial setup of each system.

## Service agreement

If you already have an annual maintenance agreement with your customer, you can add your iotega service and support to the agreement. It's your choice whether to offer it as an added value within your existing relationship or to add it as a premium service.

If you do not yet have a maintenance agreement, iotega gives you the perfect opportunity to start generating recurring revenues.

## Ongoing management

You can manage each system remotely, via your provider account dashboard. Using any PC or mobile device, you can:

- View system status
- Check logs and performance
- Perform diagnostics
- Enroll devices
- Upgrade panel and accessories firmware
- Adjust panel programming
- Check system for potential faults

And, your customers can easily control their smart home security system via the solution provider's iotega user app.

## Real advantages for you

- Stand out from your competition
- Increase your recurring revenues – If you offer it as a premium service
- Increase customer loyalty
- Expand into the fast-growing smart home market

### High-value features

- ✓ Quick and easy installation – Plug-in and program
- ✓ Remote management of systems
  - Reduces truck rolls
- ✓ Multiple communication options
  - Built-in Wi-Fi, 3G, Ethernet

## Great benefits for your customers

- Reliable, robust security – Market-leading PowerG wireless technology
- Smart living, aligned with today's smartphone lifestyle
- Convenience – Control security system and smart home devices via a single app
- Confidence – Security and home automation backed by a trusted professional (you!)

### High-value features

- ✓ Live view into their home from anywhere – With real-time video
- ✓ Arm/Disarm, activate events, schedules and other triggers from a smart phone or touchscreen keypad locally or remotely
- ✓ Choice of over 200 security and smart home devices
- ✓ Sleek, minimalist design – Discreet placement in any decor
